

Review of Dinesh Chauhan Wellington, New Zealand Seminar, 2010

Fiona Provan & Madeleine McGrath (Brisbane, Australia)

Maddey McGrath and I had seen Dinesh present a beautiful case in Goa, India in 2009 and we knew from this how impressive he was as a speaker as well as a homeopath.

Dinesh at his Wellington NZ seminar gave us one of the most effective learning tools we have ever received. Dinesh patiently took everyone back through the art of case-taking simplifying the process down to three parts. **His concept of Passive/Active Passive /Active Active is quite possibly the easiest and most effective way we have ever been shown.** We came back to Australia with renewed passion about how to improve our case-taking utilising the skills we had received from Dinesh.

Dinesh also has the ability to reach across boundaries closing the gaps between the many differing case taking methods showing how we are all coming from the same place and all with the same aim. He patiently reminds everyone that advancement comes in every aspect of life through improved knowledge, technology, experiences and that homeopathy is no exception.

I highly recommend Dinesh Chauhan as a speaker who brings humour, passion and intelligence in his presentations. If you have the opportunity to see him speak jump at the chance you will not be disappointed. We are hoping that he can incorporate Australia next year with his NZ trip.
