

## Testimonials Indian Seminars

At the outset I am thankful not only to Dr. Dinesh Chauhan for his dedication, devotion and making the things so simple yet conclusive mode to arrive at the similimum, but also to Dr. V.K. Dhawan, Dr. Ankur Singal and to Dr. Navin Jain for making this all happen. Besides the knowledge being a feast for the mind, it was really enlightening and yet so simple that even a novice in the field was at home to comprehend the deep and steep knowledge / meaning behind the scenario. Some call it genome, some call it PQRS, some call it core yet it is the essence of the medicine which unless and until aligned with the disease symptoms is not capable of rooting out the disease. The profoundly ingrained knowledge of the materia medica concurrently with differentiating aspects of each medicine, ploughed in arriving at the similimum by Dr. Chauhan, was a treat to watch. Not only that, I found him to dole out his wealth of knowledge to his fellow beings. In nutshell, I would say Dr. Chauhan's positive attitude is enshrined in his genome. - **Dr. R.K. Malhotra (2010, Karnal Seminar)**
